

Code of Ethics

This policy aims to give our team members (interns, Associates, volunteers, contractors, etc.) guidelines on our company's business ethics and to help them make the best possible decisions in difficult situations at a personal level. Professional ethics refers to a set of principles that guide the behaviour of people in a business environment.¹

Our Code of Ethics consists of:

Respect for others. Simple: treat others as you would like to be treated.

Honest and clear communication. Strive to communicate openly and honestly with everyone you interact with.

Credit where credit is due. The internet provides unparalleled access to ideas from around the world. Make every effort to accurately attribute the work and ideas of others.

Competence and Accountability. Work hard and take responsibility for all of the work you accomplish.
